

Snow & Company, Inc.

Lead Naval Architect / Marine Engineer Ballard

Small boat building and repair company in Seattle seeks a Naval Architect Marine Engineer to create vessel and vessel system designs, research compliance specifications and technical design issues including but not limited to vessel structures, electrical, mechanical, propulsion and navigation systems, report findings and provide recommend possible solutions along with leading our engineering team. In-house only no freelance or work from home positions available. We use Rhinoceros 3d.

We offer jobs that are rewarding and we pride ourselves in our ability to deliver exceptional work.

We look for inspired and motivated self-starters. Our company is team oriented and requires individuals with a collaborative and innovated thought process. With quick turnaround projects and strict deadlines we need candidates who can work in a fast paced environment, while maintaining a positive, can-do attitude.

Designers at Snow have the opportunity to watch their projects from conception to delivery, we build the majority of our designs in our shop in Ballard. Designers often have direct contact with clients, end users, fabricators, mechanics, electricians, subcontractors, and vendors and suppliers.

Qualifications

- MUST have RHINO experience.
- Bachelor's Degree in Naval Architecture & Marine Engineering or related field a plus.
- 3-5 years naval architecture marine engineering experience
- Knowledge of early-phase total ship design including fields such as weight estimating, hull form development, power and speed estimating, stability, structures, and seakeeping analysis is preferred. Additional knowledge of design of shipboard fluid systems, propulsion, machinery arrangement, auxiliary systems, control and monitoring and/or HVAC systems is also preferred.
- Ability to effectively engage in multiple detailed projects and complete work on schedule in a fast paced environment required.
- Applicants must be U.S. citizens.

Marine Design

- Small Vessel Design
- Systems Design
- Installation and Fabrication Support Drawings
- Deck Gear
- Electrical Systems
- Machinery Systems

Desired Characteristics

- Dependable, motivated, attention to detail, action oriented, self-starter with a sense of integrity, ability to adapt, pride yourself in customer satisfaction.
- Leadership and management skills.

- Positive work environment
- Full coverage health insurance plan, includes families
- Competitive pay
- Opportunity to growth
- Working in the exciting young community of the Ballard Shipyard, this is not corporate.

Pay DOE, 100% paid medical for employee, spouse, dependents, paid holidays.

Snow & Company:

We are a leading boatbuilder and ship repair company in the Ballard neighborhood of Seattle. We build commercial vessels for the fishing industry, government agencies, tugboat operators, aquaculture companies and other marine businesses. Additionally, we perform overhauls and repairs to vessels. Located on the ship canal we have modern enclosed fabrication halls along with waterfront repair facilities.

Snow & Company, Inc. provides equal employment opportunities to all employees and applicants for employment without regard to race, color, religion, sex, national origin, sexual orientation, gender identity, protected veterans, age, disability, or genetics. In addition to federal law requirements, Snow complies with applicable state and local laws governing nondiscrimination in employment.

Snow & Company, Inc. is considered an essential business and strictly follows the COVID-19 General Workplace Requirements as stated by the State of Washington Dept of Labor and Industries.

Snow is a Drug Free workplace
